## NATURAL STONE

### *Fireplace Surrounds*

Alamo Stone's Fireplace Collection features a few carefully selected natural stones from our extensive product catalogue.

We fabricate these American-sourced limestone selections to your specifications, and the resulting custom Fireplace Surround is an architectural accent piece that enhances your space with the perfect balance of luxury, charm, and functionality.

Do you have a truly unique project that requires a one-of-a-kind custom fireplace surround? We can help you choose from a variety of Exotic Natural Stone selections that will elevate your design to new levels.

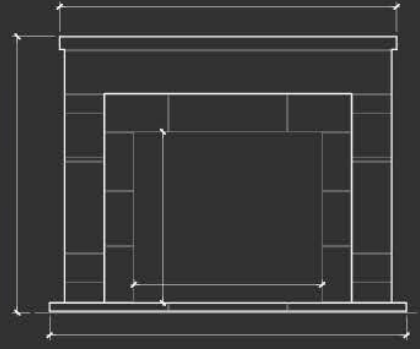

## THE PERFECT COMBINATION OF *Stone and Finish*

Choosing the right combination of stone and finish can be daunting, so we make it easy by offering you these two tried and true finishing options: Honed, which presents as a smooth, flat, consistent, and matte surface; and Brushed, a textured finish with an interesting worn-in look.

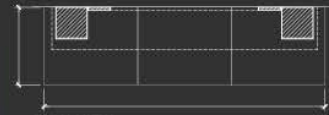

Are you looking for more options? Ask us about other Specialty Finishes and Exotic Stone Selections available.
