## PRODUCT HIGHLIGHTS

The **Arkiquartz** porcelain collection was designed to be the perfect convergence of inspiration and innovation, with indoor surfaces accentuating their natural appearance and outdoor surfaces becoming more refined, an approach that translates into a new way of understanding indoor-outdoor aesthetic and design continuity.

The uncommon size of these porcelain tiles (7.5 x 30 x 0.85 cm, or about 3 x 12 x <sup>5</sup>/<sub>16</sub> in) catch the eye with the visual movement created between the surfaces and edges, cleverly designed to reproduce the traditional quartzite split.

**Arkiquartz** is the ideal solution to give character to small spaces, as flooring, and as a cladding for fireplace surrounds, internal, and external walls.
